

## **Inspector Note**

### **2016 Based Household Projections**

As you will be aware the 2016 based Household Projections were recently made available. We would be grateful if you could produce a short note confirming the projections insofar as they relate to the New Forest National Park Area/District and what implications they have in terms of the calculation of OAN. We would also appreciate your view as to the extent of any additional work that you consider appropriate to undertake in terms of revisiting or updating the assessment of OAN in light of the latest projections and the timescale for such work.

We would appreciate your initial response on this matter by Tuesday 16<sup>th</sup> October.

Inspectors

Kevin Ward and Caroline Mulloy
