DCMS Innovation Fund Pilot

COOLDERRYS COTTAGE, MASSEYS LANE, EAST BOLDRE, BROCKENHURST, SO42 7WE: Cabinet Live

The cabinet which serves this address has been upgraded to fibre by the Hampshire Superfast Broadband Programme.

You may therefore be able to get superfast broadband.

Please check the speeds available to you by using the following link to the [BT Openreach](#) website.

We may not be able to reach all the premises in this postcode.

Whilst the funding we have is considerable, it will not enable us to reach every property in Hampshire. Hampshire County Council is awaiting further information from Government about how to address this issue.

District Superfast Broadband Coverage 2013 - 2019

HCC Contract 2

HCC Contract 1

Commercially Funded Coverage

Hampshire Superfast Programme

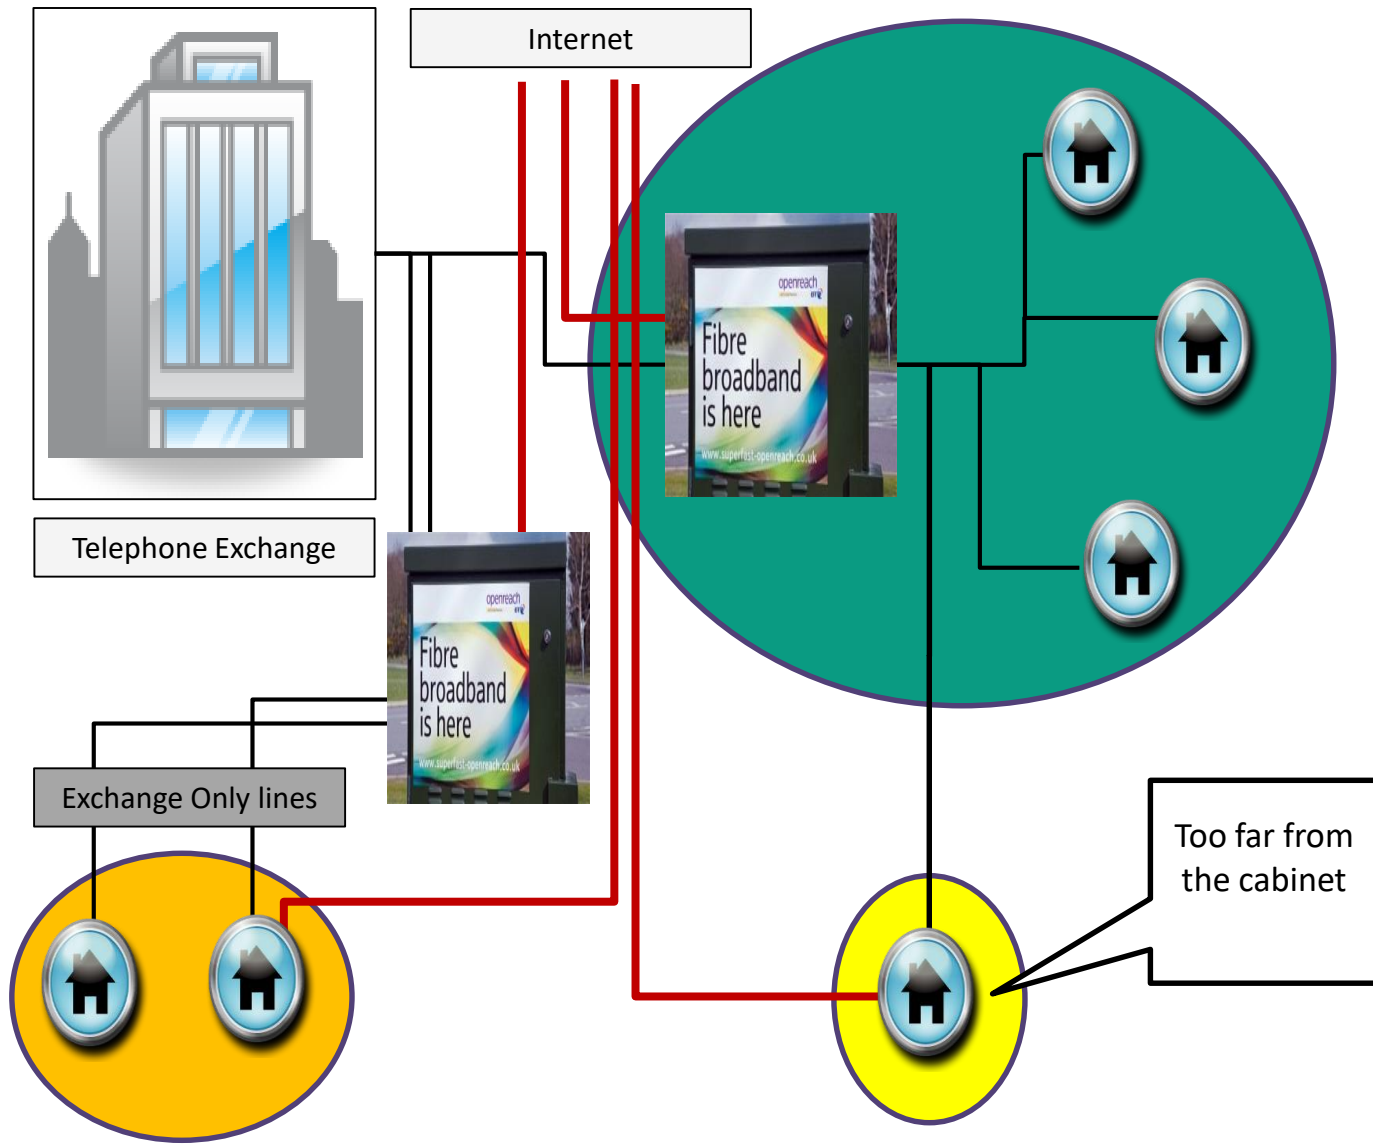

- Commercially Funded Upgrades reach 80% of premises by end of 2013
- Government Intervention 2013 - 2019
 - Wave 1 - £11m
 - 64,500 premises upgraded 2013 - 2015
 - Wave 2 - £18m (£9.2m from HCC)
 - 34,500 premises 2016 - 2018
 - Wave 2 Extension - £6.8m
 - 8,500 premises 2018 – 2019
- Universal Service Obligation 2020
- 100% FTTP Coverage by 2033

Superfast Broadband Programme

Upgrading connections to more than 107,000 premises

Over 12,000 Fibre to the Premises (FTTP)

- Increase coverage from 80% to more than 97.4% by end of 2019
- 15-20,000 premises across Hampshire
- Looking for new funding streams to reach the last 2.6%, likely cost £20-£40m
- **Better Broadband Scheme**
Offers 4G, satellite and fixed wireless solutions for premises with a sub-2Mbps speed
The scheme was extended until end 2018
We have issued 900 codes for installations
- A national **Gigabit Broadband Voucher Scheme** has been launched, with the aim of extending full fibre coverage specifically to small/medium-sized enterprises

What next?

- The Hampshire Superfast Broadband Programme runs until end 2019. It is on track to provide coverage for 97.4% of the region (above government targets)
- c. 20,000 premises without access to superfast broadband, expect to target with Full Fibre connections.
- USO (Universal Service Obligation) to offer minimum of 10Mbps by 2020
- The Future Telecoms Infrastructure Review (FTIR)
 - Part of the government's modern Industrial Strategy, proposes the changes that are needed to give the majority of the population access to 5G, connect 15 million premises to full fibre broadband by 2025, and provide full fibre broadband coverage across all of the UK by 2033.
- Fibre to the Premises (FTTP) to all by 2033
