

Update to Consultative Panel September 2019

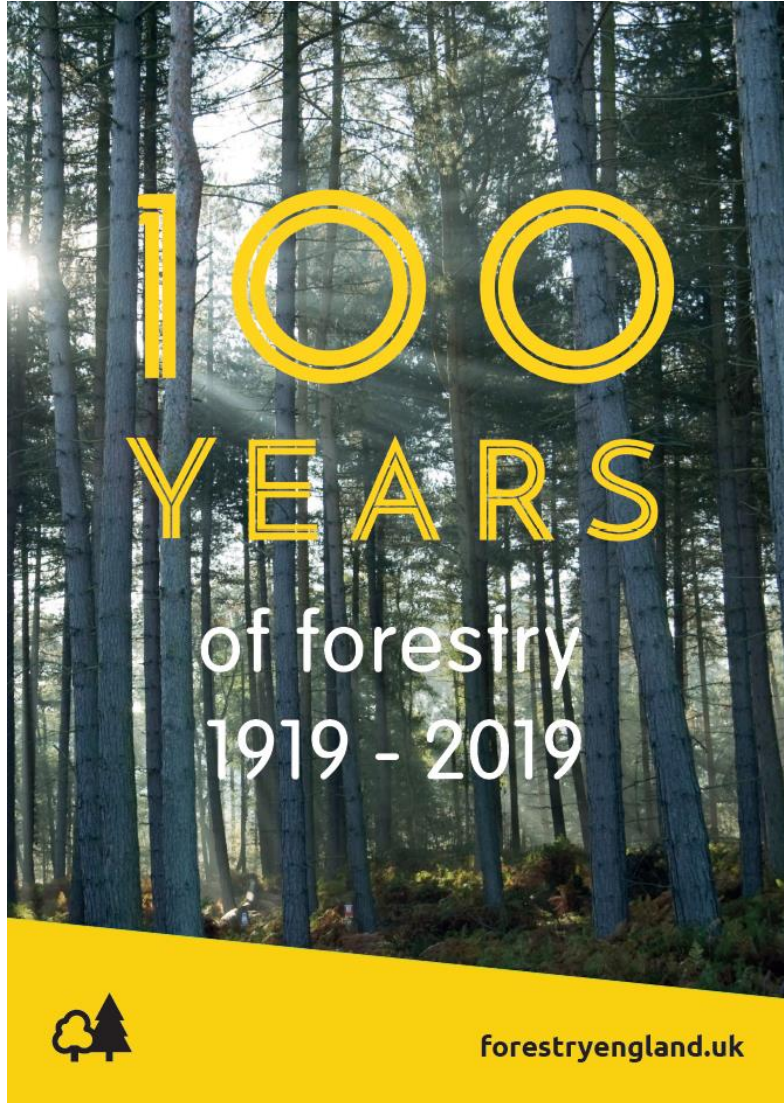

New Chief Executive - Mike Seddon

New Head of Recreation Sam Jones

Forestry Commission's Centenary

Rewriting the Forest's ancient past

Unofficial camping

Managing the Homeless

Iconic heathlands

Look but please don't pick

Fungi are essential to the New Forest National Park's ecosystem, which is why we are asking you not to pick fungi from this special place.

Please leave fungi alone as they might be very poisonous or rare.

Educational Forays are only allowed with permission from the Forestry Commission in advance. Clear guidelines will be issued with any permission.

Thank you for helping us to protect the New Forest's fungi.

Commercial collecting of fungi is not allowed. If you suspect or see commercial fungi picking please call the Forestry Commission on 0300 067 4600 (24 hours).
