Farming in Protected Landscapes

Transparency of funding

Business name	Town	Total Project Cost	FiPL grant awarded	FiPL grant claimed	Project start date	Project end date	Project description
3D Farming Partnership	Beaulieu	£29,760	£19,840	£19,840	01/03/2023	16/03/2023	Ziegler pick up header.
A Cook	Lyndhurst	£22,281	£18,016	£17,311	11/07/2022	28/02/2025	To manage the ditch network to help with flooding, as well as reintroduction of cattle grazing to the SINC to encourage purple moor-grass and species such as woodcock.
A Pollock	Lymington	£3,389	£2,873	£2,115	01/09/2022	10/03/2023	Build three wildlife ponds in fields chosen by the Freshwater Habitats Trust.
AJ Burden & Son	Fordingbridge	£73,755	£64,619	£58,620	03/03/2022	14/10/2024	Rainwater harvesting, solar panels, planting and gapping up hedgerows, plant trees, pollen & nectar margins.
Bennies	Lyndhurst	£2,040	£1,700	£1,700	19/03/2024	31/03/2024	Funding of a harrow to manage semi natural grasslands / hay meadow on back up grazing.
Bridge Farm	Brockenhurst	£42,515	£25,515	£25,515	05/03/2025	31/03/2025	Reintroduce cattle across the whole farm on a rotational basis. The current horse friendly plain wire that is in situ across the whole farm is not of a type or condition to contain cattle. As such a combination of stock netting and barbed wire is necessary.
Brockenhurst Park	Brockenhurst	£25,314	£14,213	£14,213	22/11/2021	24/03/2022	Replace Parkland trees and lime avenue enhancing landscape and preserving landscape features, while increasing biodiversity and climate control.
Bull Hill Farm	Lymington	£15,748	£11,675	£11,675	01/11/2023	28/03/2024	Creation of hard standing manure store with associated sidewalls and panels and farm trackway/gate entrance maintenance to mitigate the risk of nutrients from existing manure store entering the local controlled watercourse and to reduce surface water runoff into the watercourse from existing farm trackways.
C Sampson	Fordingbridge	£2,580	£2,580	£2,580	25/01/2022	22/03/2022	Improve water quality + create wildlife habitat.

Business name	Town	Total Project Cost	FiPL grant awarded	FiPL grant claimed	Project start date	Project end date	Project description
C Sampson	Fordingbridge	£5,531	£5,531	£5,531	01/01/2023	27/03/2023	Increase the area, connectivity, and quality of habitat available for nature, improve the availability of backup grazing for native cattle and reduce the likelihoods of phosphates from the farm entering the watercourses.
C Sampson	Fordingbridge	£5,189	£3,440	£3,440	20/02/2023	20/03/2023	Bale sledge to support the farm with solo production.
C Sampson	Fordingbridge	£5,127	£4,102	£4,102	01/08/2024	16/10/2024	Muck spreader to reduce artificial inputs.
C Weis	Fordingbridge	£58,308	£35,308	£29,808	01/10/2022	25/03/2025	Market gardening and community enterprise project
C Williamson	Lymington	£31,716	£29,127	£28,937	01/10/2024	16/03/2025	Creating corridors and habitats to enhance backup grazing farmland bordering Lymington Reedbeds SSSI.
CEM Powell	Lymington	£2,411	£2,339	£2,339	11/02/2022	24/03/2022	Plant hedgerows and trees.
CET	Beaulieu	£61,274	£46,907	£46,907	20/10/2024	18/03/2025	Make educational enterprise self-sufficient, deliver landscape enhancements for nature, demo nature & climate friendly farming to visitors, continue legacy of education and access to NF & farming.
Coppitswood	Cadnam	£15,775	£11,187	£10,956	15/06/2024	24/03/2025	Grazing improvements on back up pasture assisting with commoning and breeding of New Forest ponies.
Culverley Farm	Beaulieu	£20,459	£10,795	£8,134	17/02/2022	20/07/2022	To help to manage the grazing land into more manageable sections by planting and restoring native hedgerows on existing boundaries to enhance wildlife and biodiversity.
D Bessant	Shedfield	£3,608	£3,608	£3,608	09/02/2022	23/03/2022	Plant hedgerows and trees
D Parsons	Lymington	£7,080	£7,080	£4,939	10/10/2024	28/03/2025	Building on DMG work plus Sussex venison report, establish if supply chain for wild venison could be improved by becoming a broker.
D Tippetts	Lyndhurst	£4,500	£4,500	£4,500	14/02/2022	31/03/2022	Purchase of charcoal kiln retort.
E Hickman	Cadnam	£7,189	£6,009	£6,009	20/03/2024	31/03/2024	Create soil biodiversity by improving the soil organic matter using organic manure spreader.

Business name	Town	Total Project Cost	FiPL grant awarded	FiPL grant claimed	Project start date	Project end date	Project description
GWCT	Fordingbridge	£8,250	£6,765	£6,765	08/12/2021	31/03/2022	To bring together the Farmer Clusters in the area of the Avon Catchment into a farmer-led entity that will create a unity of purpose for the development of a catchment-scale, on-farm conservation plan which will look at reversing biodiversity loss in the catchment, moving towards carbon-zero farming and improving river water quality, working with the existing Farmer Cluster environmental advisors.
GWCT	Fordingbridge	£8,059	£8,059	£6,770	15/03/2024	31/03/2024	Bespoke equipment to monitor and remove American Mink.
GWCT	Fordingbridge	£8,998	£8,998	£8,998	06/01/2025	30/01/2025	Bespoke equipment to monitor and protect breeding wader nests in the Avon Valley and surrounding habitat.
GWCT	Fordingbridge	£31,210	£18,726	£17,720	06/01/2025	31/03/2025	High specification drone, software, and data charges to undertake survey work on the project area. Training for GWCT employee, Environmental Farmers Group member and volunteer.
Hockeys Farm	Fordingbridge	£37,697	£25,198	£23,437	14/01/2022	08/03/2023	Address current flooding issues and waterlogging at the farm by undertaking soil management and creating wildlife habitats to help hold back water. To help water resources and flooding by installing a large rainwater harvesting system. To provide more natural habitat for the benefit of both wildlife and public. To reduce energy and water use and bring the farm business to net zero.
Holly Farm	Copythorne	£21,971	£17,017	£12,743	01/07/2023	26/02/2025	Create wildlife corridors, new habitats. New fencing protects hedging, create wider hedges. Trees to be planted.
I Manston	Holbury	£9,365	£9,365	£9,365	01/09/2024	06/03/2025	Planting hedging alongside native trees, improve existing grassland. Also, fencing to protect grassland.
K Crouch	Colbury	£3,780	£3,024	£3,024	10/11/2024	24/03/2025	Hurdles for setting up working livestock pens in fields, saves time, prevents injury, isolates & separates livestock, easier to conduct tasks eg worming or vet.
