

Proposed Changes to New Forest National Park Local Plan Policies Map at Regulation 19 public consultation (August 2026)

1. Following the Regulation 18 (part 2) public consultation undertaken in November and December 2025, several changes to the adopted Local Plan Policies Map are proposed. These have been made in response to representations received during that consultation, and the receipt of final evidence base studies and supporting documents. These comprise:
 - The identification of boundaries for the proposed housing site allocations;
 - The identification of a boundary for the proposed employment site allocation at Fawley;
 - Changes to the proposed boundary of Cadnam - Bartley Defined Village; and
 - The addition of a proposed site allocation for Travelling Showpeople at Netley Marsh.
2. The revised Policies Map can be viewed in full as an interactive online map as part of the Authority's Regulation 19 public consultation on our website, at the [following link](#).

Boundaries of housing site allocations
